

# REEMS CREEK NURSERY

## SPRING 2023

### FRUIT & NUTS LIST

*Fruits sell quickly so don't delay!*

**Spring Fruit shipments:** Weather permitting, we expect fruit trees and berries to start arriving mid February. Look for updates on our [website](#), weekly [newsletter](#), on [Facebook](#) and [Instagram](#). While we are thrilled to offer some exciting new edible plants alongside classic ones, **supplies are limited.**

Disclaimer: To the best of our knowledge, we will receive these listed plants on our spring shipments. Plants are living things and availability can change on short notice.

**Most of our fruits and edibles have free Garden Guides. Cashiers can email them to you - just ask.**

FRUIT TREE SIZES: Dwarf: 8-10' tall, Semi-dwarf: 12-15' tall, Full size: 20-40' tall

#### APPLES

Unless otherwise noted, pollinate with a second apple that is a different cultivar

Arkansas Black, #5, Semidwarf  
Arkansas Black, #7, Semidwarf  
Crimson Crisp, #5, Semidwarf  
Crimson Crisp, #7, Semidwarf  
Empire, #7, Semidwarf  
Enterprise, #5, Semidwarf  
Golden Russet, #7, Semidwarf  
Gold Rush, #1, Semidwarf  
Gold Rush, #5, Semidwarf  
Honeycrisp, #1, Semidwarf  
Honeycrisp, #5, Semidwarf  
Liberty, #1, Semidwarf  
Liberty, #5, Semidwarf  
Liberty, #7, Semidwarf  
Mcintosh, #5, Semidwarf  
Melrose, #7, Semidwarf  
Mountain Rose, #1, Semidwarf  
Mutsu / Crispin, #5, Semidwarf  
Red Cascade, #1, Semidwarf  
Red Winesap, #7, Semidwarf  
Roxbury Russet, #7, Semidwarf

**Stayman Winesap**, #5, Semidwarf  
**Stayman**, #7, Semidwarf  
**Summer Rambo**, #7, Semidwarf  
**White Cloud**, #1, Semidwarf  
**Wolf River**, #5, Semidwarf  
**Wolf River**, #7, Semidwarf  
**Yellow Delicious**, #5, Dwarf  
**5-n-1**, #5, Semidwarf

## **CHERRIES**

### **SWEET CHERRY**

Self-pollinating varieties yield more when planted with another sweet cherry variety

**Black York**, #15, Semidwarf, pollinate with a second sweet cherry that is a different cultivar  
**White Gold**, #7, Semidwarf, Self-pollinating but for higher yields, pollinate with a second sweet cherry that is a different cultivar

### **TART CHERRY**

Self-pollinating varieties yield more when planted with another tart cherry variety

**Danube**, #7, Semidwarf, Self-pollinating  
**Montmorency**, #7, Semidwarf, Self-pollinating

## **PLUM – EUROPEAN**

Self-pollinating varieties yield more when planted with another European plum variety

**French Prune**, #1, Semidwarf  
**Green Gage**, #1, Semidwarf  
**Italian Golden Weeping**, #1, Semidwarf  
**Jam Session™**, #1, Semidwarf  
**Stanley Prune**, #7, Dwarf

## **PLUM - JAPANESE-AMERICAN**

**Superior**, #7, Semidwarf - pollinate with an Japanese-American plum that is a different cultivar  
**Toka**, #7, Semidwarf - pollinate with an Japanese-American plum that is a different cultivar

## **PEACH**

**Carolina Gold**, #5, Dwarf, Self-pollinating, Freestone  
**Contender**, #5, Dwarf, Self-pollinating, Freestone  
**Contender**, #7, Dwarf, Self-pollinating, Freestone  
**Cresthaven**, #7, Dwarf, Self-pollinating, Freestone  
**Redhaven**, #3, Dwarf, Self-pollinating, Semi-freestone  
**Reliance**, #5, Dwarf, Self-pollinating, Freestone  
**Reliance**, #7, Dwarf, Self-pollinating, Freestone

## **ASIAN PEAR**

Pollinate with a second Asian pear that is a different cultivar

**Chojuro**, #7, Dwarf

**Raja**, #1, Dwarf

**Shinko**, #1, Semi-Dwarf

**Shinko**, #7, Dwarf

## **EUROPEAN PEAR**

Unless otherwise noted, pollinate with a second European pear that is a different cultivar

**Keiffer**, #5, Dwarf, Self-pollinating but higher yields with a second European pear that is a different cultivar

**Red Anjou**, #7, Dwarf, pollinate with a second European pear that is a different cultivar

**Rescue**, #1, Dwarf, pollinate with a second European pear that is a different cultivar

**Ubileen**, #1, Dwarf, can be pollinated by a second European that is a different cultivar or an Asian pear

## **PERSIMMON**

**Jiro**, Japanese persimmon, #7, Self-pollinating

**Nikita's Gift**, American-Asian hybrid persimmon, #7, Self-pollinating

**Meador**, American persimmon, #7, Partially self-pollinating. Plant with other American persimmons for higher yields.

**Native Species**, American persimmon, #2, plant multiple for pollination

**Native Species**, American persimmon, #7, plant multiple for pollination

## **BLACKBERRIES** - All Self-fruitful

**Arapaho Thornless** Blackberry, #1

**Chester Thornless** Blackberry, #1

**Navaho Thornless** Blackberry, #1

**Triple Crown Thornless** Blackberry, #1

**Triple Crown Thornless** Blackberry, #2

## **RASPBERRIES** – All Self-fruitful

**Anne** Yellow Raspberry, #2

**Canby**, Red Raspberry, #1

**Canby**, Red Raspberry, #2

**Canby**, Red Raspberry, #3

**Caroline** Red Raspberry, #2

**Fall Gold** Yellow Raspberry, #1

**Heritage** Red Raspberry, #1

**Heritage** Red Raspberry, #2

**Prelude** Red Raspberry, #2

**Shortcake** Red Raspberry, #1

## **BLUEBERRIES**

### **HIGHBUSH BLUEBERRIES**

Pollinate with a second highbush blueberry that is a different cultivar

**Bluecrop, #1**

**Bluecrop, #2**

**Bluejay, #2**

**Blueray, #1**

**Blueray, #2**

**Cabernet Splash, #2**

**Chandler, #1** *Arriving mid-March*

**Chippewa, #2**

**Duke, #1** *Arriving mid-March*

**Duke, #2**

**Duke, #5**

**Duke, #6** *Arriving mid-March*

**Elliot, #1** *Arriving mid-March*

**Elliot, #2**

**Jersey, #1** *Arriving mid-March*

**Jersey, #3**

**Nelson, #1** *Arriving mid-March*

**Patriot, #2**

**Patriot, #5**

**Patriot, #6** *Arriving mid-March*

**Razz, #3** *Arriving April*

**Saint Cloud, #1**

**Superior, #3**

**Toro, #1**

## **GRAPES**

**Concord Seedless, #2, Self-fruitful**

**Mars Purple Seedless, #2, Self-fruitful**

**Reems Creek Champagne, #1, Seeded, Self-fruitful (rare local heirloom)** *will arrive from our farm when ready*

**Reems Creek Champagne #2, Seeded, Self-fruitful (rare local heirloom)** *will arrive from our farm when ready*

**Venus Red Seedless, #2, Self-Fruitful**

**FIGS** - Best planted where protected from winter winds

**Brown Turkey, #1, Self-pollinating**

**Celeste, #1, Self-pollinating** *Arriving mid-March*

**Chicago Hardy, #2, Self-pollinating** *will arrive from our farm when ready*

**Chicago Hardy, #3, Self-pollinating** *Arriving mid-March*

**Stella, #1, Self-pollinating**

## **PAWPAW**

Pollinate with a second pawpaw that is a different cultivar, or with another seedling pawpaw.

- Asimina triloba**, Seedling Pawpaw #3
- Asimina triloba**, 'KSU - Benson', Grafted Pawpaw, #1
- Asimina triloba**, 'KSU - Chappell', Grafted Pawpaw, #1
- Asimina triloba**, 'Pennsylvania Golden', Grafted Pawpaw, #1
- Asimina triloba** 'Mango', Grafted Pawpaw, #1
- Asimina triloba**, 'Shenandoah', Grafted Pawpaw, #1
- Asimina triloba**, 'Sunflower', Grafted Pawpaw, #1

## UNIQUE FRUITS & EDIBLES

### ARONIA

- Nero**, #1, Self-pollinating
- Viking**, #1, Self-pollinating
- Viking**, #3, Self-pollinating

### ELDERBERRY

Pollinate with a second Elderberry that is a different cultivar.

- Elderberry Bob Gordon**, #1
- Elderberry Nova**, #1
- Elderberry York**, #1

### GOJIBERRY

- Gojiberry Crimson Star™**, #1, Self-fruitful
- Gojiberry Crimson Star™**, #3, Self-fruitful

### KIWI - HARDY

- Male Hardy Kiwi**, #2, one male plant can pollinate up to 8 female plants
- Anna Hardy Kiwi** (female), #2, Needs a male Hardy Kiwi as a pollinator
- Issai** (female), #1, Needs a male Hardy Kiwi as a pollinator *will arrive from our farm when ready*
- Red Hardy Kiwi** (female), #2, Needs a male Hardy Kiwi pollinator

### MULBERRY

- Illinois Everbearing**, *Morus alba x m. rubra*, #1, Self-pollinating
- Illinois Everbearing**, *Morus alba x m. rubra*, #7, Self-pollinating
- Native Red Mulberry**, *Morus rubra*, #3, Self-pollinating

### POMEGRANATE

- Pomegranate 'Crimson Sky'**, Zone 7, Self-pollinating
- Pomegranate 'Wonderful'** Zone 7, Self-pollinating

### TEA PLANT

- Tea Plant, Korean Tea Seedling**, *Camellia sinensis*, #1, Zone 7
- Tea Plant, Korean Green Tea**, *Camellia sinensis*, #5, Zone 7

### SERVICBERRY

**Serviceberry**, Amelanchier Autumn Brilliance, #5, Self-pollinating *Arrives early March*  
**Serviceberry**, Amelanchier Autumn Brilliance, Clump, #7, Self-pollinating *Arrives mid-March*  
**Serviceberry**, Amelanchier Autumn Brilliance, #15, Self-pollinating *Arrives early March*

## **CITRUS FRUIT**

Overwinter indoors, must protect from freezing temperatures

**Bergamot**, #1, Self-pollinating  
**Lemon 'Variegated Pink'**, #1, Self-pollinating  
**Lime 'Bearss'**, #1, Self-pollinating  
**Lime 'Thornless Key Lime'**, #1, Self-pollinating  
**Meyer Lemon 'Improved'**, #1, Self-pollinating  
**Yuzu 'Sudachi hybrid'**, #1, Self-pollinating

## **NUTS**

**American Hazelnut**, #7, Plant multiple for pollination  
**English Walnut 'Carpathian'**, #7, Partially self-fertile, plant near other English Walnuts for improved yields.

## **OTHER**

**Honeyberry 'Yezberry Solo'**, #3 *will arrive from our farm when ready*  
**Luo Han Guo (Monk Fruit)**, #1, Not hardy, treat like Citrus. Need 2 for pollination.  
**Medlar 'Nefle de October'**, #1, Self-pollinating  
**Passion Flower Vine**, *Passiflora incarnata* '**Bluepop**'™, #1, Self-fertile  
**Passion Flower Vine**, *Passiflora incarnata*, **Maypop**, #1, Self-fertile

## **GENERAL TIPS FOR PLANTING FRUITS & EDIBLES**

**Refer to our free Garden Guides for specific care and recommendations - available by request.**

- Plant fruit in full sun (a minimum of 6 hours of direct sun per day).
- Space plants far enough apart to allow for good air movement once they have reached their mature size (this helps prevent fungal diseases).
- Fruit likes good drainage in its root zone. Amend your planting hole with 50% soil amendment (compost, soil conditioner). Your backfill should be 50% your native soil mixed with 50% amendment.
- Rock Phosphate, Greensand, Kelp, and Azomite are beneficial additions to the planting hole.
- Hold mulch away from the trunk of the plant.
- Water regularly and deeply the entire first year (water twice weekly to the bottom of the root ball), and water during dry periods thereafter. Drought can compromise plant health and fruit production.
- Remove any flowers/young fruit the first year, so the plant's energy goes into forming big healthy roots.
- Weed-eating near fruit tree trunks can kill the plant. Be extremely cautious.
- **Enjoy your delicious harvest!**

Most of our spring fruit shipments will have arrived by around mid-April. **Our next substantial Fruit shipment will arrive in early September 2023.**
